

Weavers' Nest Family Suite

This is part of the original farm managers cottage built in 1948 on the pioneering Olifants River Estate. It houses a superb collection of Africana and memorabilia belonging to the owners of Monsoon and steeped in the history of the lowveld. This is the African bush savannah, bordering big game country.

This beautiful farm cottage has a stylish family suite with air-conditioning and bathroom en-suite.

Home-cooked three-course dinners are served by lamp light on the farmhouse veranda overlooking the lush tropical gardens.
